

## The Right Here Showcase 2016

Posted on March 31, 2016 at 7:10 pm

There's something really important about recognizing the work of performance artists who have spent years at their craft, but still have much more great work ahead of them, and that's why we're fans of the *The Right Here Showcase* from **Off-Leash Area**, now in its second year. The program commissions new or previous or unfinished works from Minnesnowta's mid-career contemporary performing artists and provides all the needed support, from tech to marketing. And we're also fans of the artists selected this year: Dance artist **Penelope Freeh** and live artist/director **Melissa Birch** (the two who will present at all the shows this weekend), and composer/multi-media artist **Craig Harris** and the very talented **Megan Mayer** (who present next weekend). **Friday-Sunday, 7:30 & 9 PM, make reservations.
